To whom it may concern,

I am writing this letter to certify that Dr. Wildes is a clinician in the penultimate year of his training in Paediatric Nephrology at our national centre in Ireland. From the beginning of his clinical career, Dermot has shown an unwavering commitment to the specialty and has spent additional time in posts which will compliment his skillset as a nephrologist (Paediatric Cardiology & Neonatal Intensive Care). Throughout our years of working together, Dermot has shown remarkable aptitude for both clinical and academic Nephrology.

Sincerely,

Professor Atif Awan
