

Table 1: Change in Median Preparedness and Comfort Following Session

Question	Pre-Course Median n=24 (IQR 25%-75%)	Post-Course Median n=20 (IQR 25%-75%)	Wilcoxon signed- rank p-value
How prepared* do you feel to:			
Elicit multiple family values via open ended questions	65 (60-80)	83 (74-97)	<0.001
Notice and respond to even subtle emotions and cues	70 (60-85)	84 (73-92)	0.004
Utilize empathic statements to guide discussion, build trust, and gather data on family needs	70 (60-80)	90 (78-97)	0.001
Personalize discussions to family understanding and terminology	70 (60-81)	91 (76-98)	<0.001
Monitor family responses and make adjustments in communication as needed	70 (59-80)	84 (71-98)	0.007
Convey support via statements and actions	70 (60-85)	91 (80-97)	0.002
Counsel in a multidisciplinary environment	70 (60-79)	86 (75-97)	0.011
How comfortable^ do you feel to:			
Elicit multiple family values via open ended questions	75 (60-85)	86 (76-99)	0.004
Notice and respond to even subtle emotions and cues	80 (62-89)	87 (79-99)	0.019
Utilize empathic statements to guide discussion, build trust, and gather data on family needs	80 (65-85)	88 (76-100)	0.008
Personalize discussions to family understanding and terminology	76 (70-85)	93 (79-100)	<0.001
Monitor family responses and make adjustments in communication as needed	80 (68-89)	87 (79-97)	0.002
Convey support via statements and actions	80 (70-90)	93 (81-100)	0.002
Counsel in a multidisciplinary environment	73 (58-82)	88 (80-99)	<0.001

*Prepared scale from 0 (very unprepared) to 100 (very prepared)

^Comfort scale from 0 (very uncomfortable) to 100 (very comfortable)
