RE: Applications for Initial/Renewal Training Licenses

Dear Board of Osteopathic Medicine,

Please accept this letter in support of the renewal application for the resident listed below.

Kristin Demayo, DO – Resident – Pediatrics – University of South Florida

Submitted for review/approval are the renewal registration application for the above referenced physician who is a resident in training in a University of South Florida Morsani College of Medicine program. This physician is enrolled in a training program in the specialty/subspecialty identified above with the training dates of 07/01/2022-06/30/2025. The resident will be rotating at our affiliates to include: **Tampa General Hospital, James A. Haley Veterans Hospital, Bay Pines Veterans Hospital, Johns Hopkins All Children's Hospital, H. Lee Moffitt Cancer Center, Advent Health, and Morton Plant Mease Hospital.** Each resident receives a yearly contract for the appointment period of July 1 through June 30. All appointments have been approved by the individual programs and Dr. Cuc Mai, Associate Dean of Graduate Medical Education for the University of South Florida.

Upon consensus in speaking with the residents who have displayed a gap between medical school graduation and medical training/employment, the lapse was either due to moving or vacationing prior to starting residency. In addition, some foreign medical school graduates used the time to study and take the COMLEX exams.

If you have any questions or require additional information about this application, please contact me at your earliest convenience.

Kind Regards,

Hannah Ware, MBA
