

Table 2: Logistic regression analysis to predict severe ROP requiring bevacizumab treatment

	<i>P</i> -value	OR	95% CI	
GA	0.57	1.925	0.980	3.782
BW	0.069	0.996	0.990	1.002
Severe ICH	0.606	5.607	1.561	20.140

GA = gestational age; BW = birth weight; ROP = retinopathy of prematurity; SGA = small for gestational age; ICH = intracranial hemorrhage
