

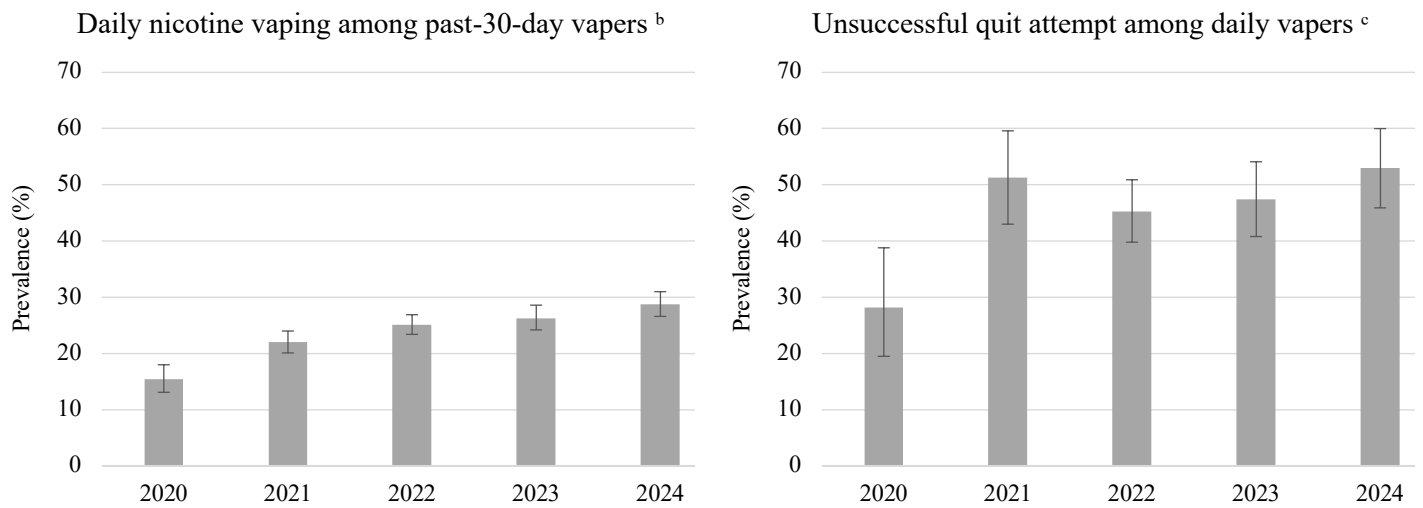

**Figure 1. Prevalence of daily nicotine vaping and unsuccessful quit attempts, 2020–2024<sup>a</sup>**

<sup>a</sup>Y-axis = Weighted percentages  $\pm$  95% CIs. X-axis = Years.

<sup>b</sup>Prevalence among past-30-day vapers with daily vaping data (n=14,607). Significant linear (p<.001) and quadratic trend, p=.002

<sup>c</sup>Prevalence among those who reported vaping on all 30 days in the past 30 days (n = 2,176) as shown in Supplemental Table 1. Significant linear trend, p = .01
