

Table 1. Survey Results(Rows in **bold** have p<0.05)

Survey Item	Group A Mean	Group B Mean	Mean Difference	p-value
<i>Prompt: Please rate the following from 1 (none of the time) to 5 (all of the time) regarding caring for children with medical complexity (CMC)</i>				
I enjoy caring for CMC	4.33	3.65	0.68	0.007
I feel frustrated caring for CMC	2.42	2.98	-0.56	0.070
I feel fulfilled caring for CMC	4.25	3.74	0.51	0.065
I feel overwhelmed caring for CMC	2.42	3.26	-0.84	0.002
I feel I have adequate time to care for CMC	3.00	2.27	0.73	0.015
<i>Please rate the following from 1 (disagree) to 5 (agree) regarding caring for children with medical complexity (CMC)</i>				
I feel my training so far has adequately prepared me to care for CMC	4.25	3.63	0.62	0.029
I would prefer additional didactic education on caring for CMC	4.08	3.98	0.11	0.695
I would prefer additional experiential, hands-on learning to better care for CMC	3.83	3.86	-0.02	0.925
I look forward to caring for CMC patients in my future career	4.42	3.91	0.51	0.024
Participating in a dedicated complex care rotation helps solidify knowledge of CMC	4.75	3.91	0.85	0.001
<i>Prompt: Please rate your comfort level from 1 (not at all comfortable) to 5 (extremely comfortable) regarding each of the following topics when caring for children with medical complexity (CMC)?</i>				
General inpatient	4.18	3.50	0.68	0.034
General outpatient	3.27	2.92	0.35	0.271
Feeding difficulties and nutritional concerns	3.91	2.98	0.93	0.001
Pain and irritability	3.27	2.62	0.66	0.066
Feeding tube management	3.46	3.08	0.38	0.288
Transition to adult care	2.46	2.57	-0.11	0.713
Goals of care discussions	3.18	3.08	0.10	0.732
Team-based care coordination	4.00	3.44	0.56	0.105
Motility disorders	3.18	2.34	0.84	0.020
Aspiration	3.64	2.95	0.69	0.061
Development and implementation of safety and emergency plans	2.91	2.51	0.40	0.227
Neuromuscular and skeletal issues	2.72	2.67	0.06	0.829
