

Figure 1. Kindergarten Vaccination Rates Compared to Nirsevimab Administration. Dark purple (scattered ZCTAs in the southern section and the northeastern county) indicates concordance between high vaccination rates and high nirsevimab rates. Light purple (northwest) indicates concordance between low vaccination rates and low nirsevimab rates. Dark blue (southern and north central) indicates low vaccination rates but high nirsevimab rates. Dark pink (northern borders) indicates high vaccination rates but low nirsevimab rates.
